

Benefit of small business camera systems:

As a business owner, no matter where you turn, you are exposed:

Robbery & Theft, "slip and fall" accidents, employee negligence and misconduct, work place violence and many more threats expose your company everyday...

...But they don't have to.

The majority of the time, they could have been prevented if a properly designed and installed camera system was in place to capture evidence of what has occurred, in and around your business.

This type of system benefits you in many ways:

- » Permanently reduced liability insurance premiums. (Most insurance companies offer between a five and ten percent reduction in liability premium for business that install a complete system)
- » Theft and robbery deterrent
- » Employee misconduct deterrent
- » The ability to see what really occurs when you are away.

Lake Anna Security installs a full line of name brand security cameras, multiplexers, recorders, housings and monitors . Some of the main options available include the following:

- » Point-of-Sale Monitoring Systems
- » Hidden / Covert / Micro Cameras
- » Day and Night Vision Ability
- » Motion Activated Cameras
- » Black & White or Color
- » Remote Camera Monitoring and Control
- » Exceptional Clarity and Zoom
- » Indoor and Outdoor Systems
- » Guaranteed Installation
- » Equipment Warrantee
- » Free Operation Training

More importantly, we can design and install a system that meets your needs, and your budget! In the past, many employers could not afford a quality CCTV system. Technological advances now allow us to offer exceptionally high quality systems, which give all of the above benefits at very reasonable prices. Many of our clients find that the money they save on their liability insurance premiums pay for the system !
